

OUR TOUGHEST BAMBOO FLOOR EVER!

The manufacturing and processing techniques used in this new product makes Nadurra's **Composite** bamboo flooring much harder than traditional bamboo floors.

Manufacturing Procedures:

Bamboo shreds are pressed together with an environmentally-friendly resin, creating a very dense plank. This floor is **twice as hard as Red Oak**, denser than traditional bamboo flooring, and looks similar to an exotic hardwood floor!

Formaldehyde Free and FSC options available!

Specifications:

Colours:	Carbonized, Natural, Sandune, Riverbed, Kalahari, Gobi, Yuma, Patagonia, Mojave, Arabian
Dimensions:	5/8" x 3-3/4" x 72" or 5/8" x 3-3/4" x 72"
Eco Merits:	available Formaldehyde-Free and FSC-certified
Installation:	Full-spread glue down recommended; call for nail down instructions

Testing & Eco Qualities:

- At **up to 3000 psi**, Composite bamboo is 100% harder than Red Oak and 18% harder than Santos Mahogany
- Finished with a durable matte finish: 11-coats of **Treffert™** UV-cured urethane and protection layers of aluminium oxide scratch-resistant topcoats. Coating is **water-based and solvent-free** and meets Canadian, U.S., and the most stringent European (EO) standards for off-gassing.
- Adhesive binders (on the ECO-Series) contain zero formaldehyde.
- Forest Stewardship Council (FSC) certified bamboo from well managed forests (on the ECO-Series-FSC)

By buying products with the FSC label you are supporting the growth of responsible forest management worldwide

"Only the products that are identified as such on the invoice are FSC certified"
