

NADURRA

Bamboo Flooring

TRAFFIC COMPOSITE™ Bamboo Flooring

Tough enough for commercial interiors, beautiful enough for your home.

NADURRA *Traffic Composite™* is the second generation of Composite™ (strand woven) bamboo flooring specifically designed for high traffic areas such as kitchens and hallways.

Nadurra has partnered with **Bona** to produce our *Matte Naturale* a commercial grade, **ultra matte** water-based surface finish which offers superior wear-tough resistance to the standard finishes on bamboo flooring.

Composite bamboo alone is 180% harder than Maple making it one of the densest floors on earth.

NADURRA *Traffic Composite™* is perfect for your home and comes with a 30 Year Structural and Residential Finish warranty.

Bamboo Flooring

Bona Commercial Finish – Matte Naturale

Our TRAFFIC Composite™ is finished with 9 layers of Bona™ acrylated UV coatings and 2 layers of anti-abrasion lacquer. Bona's formula is specially made for bamboo and provides enhanced adhesion and greater overall flexibility and durability over its lifetime of abuse. The *Matte Naturale* finish provides a gloss so matte, that it leaves your floor looking like untreated natural wood.

Superior Hardness

Composite bamboo flooring is one of the hardest floors on the market today! Rated as hard as 3000 lbs/force on the Janka scale it doubles the density of Red Oak (rated at 1290). Made of strands of bamboo that have been pressed together with a durable resin under hundreds of tons of pressure, this hardness greatly reduces denting and overall wear from long term use. Ideal for high traffic residential and commercial settings, Composite bamboo flooring can be used where other woods like oak, fail to perform.

Nadurra Verified

Going one step further than other suppliers, NADURRA has partnered with Bona to have our products tested to assure us that we are receiving the real Bona coatings. Substituting product ingredients is rampant in China and NADURRA has found that working closely with Bona we can be assured of the quality of this product. With this product you will also receive Bona's Lifetime support.
