TORLYS  
CORK FLOORS

# Your SPACE.

## A floor for our time.

Consider how much good is done when your floor is made from a renewable resource.

Cork flooring is made by harvesting cork bark once every nine years, without cutting down trees. TORLYS Cork starts from this remarkable origin and builds on it – rethinking every aspect of flooring design, and optimizing every positive environmental advantage.

# Naturally.

Rarely is personal serenity achieved so simply. Here you find it, in a uniquely expressive floor, with satisfying environmental and performance benefits. TORLYS Cork. A floor whose time has come. Stunning to behold, warm to the touch, and naturally air-cushioned for quiet and comfort, TORLYS Cork is a floor like no other, gifted with long-life and harmonizing, every day, with nature.

# FAQs and More

## What makes TORLYS Cork different from other cork floors?

TORLYS Cork is cork flooring taken to another level. TORLYS has a wide selection of designer-inspired styles and colors to help you create stunning yet durable floor surfaces. Gap-resistance is ensured with the Uniclic joint, and dent resistance is maximized with a high-density wood core.

Trust nature to create inspiring and unique flooring.

## Can I put TORLYS Cork anywhere in my house?

TORLYS Cork is an engineered product, well-suited for installation below grade, over concrete and even over existing floors. Cork can be installed in bathrooms, but care should be taken to seal all expansion gaps with silicone. Ask your local TORLYS dealer for more information on different applications and what you may require.

## Is there color variation in cork?

Because Cork is a natural material, no two planks are alike...this adds to its beauty. **Some color and shade variation should be expected.** Always work from several boxes at the same time and shuffle planks for the best visual appearance. Protect flooring from direct sunlight, to minimize fading!

## Does cork flooring fade with exposure to sunlight?

Cork, like all natural products, has a distinctive natural coloring that will age over time and lighten if installed near direct sunlight.

## Can I easily repair my TORLYS Cork floor?

Yes. A Touch-up kit is available to repair minor scratches and dents and, only TORLYS offers you the Bulldog, a tool which allows you to replace any plank or tile, even if it's in the middle of the room, with no power tools, dust or noise.

## Is TORLYS Cork difficult to keep clean?

TORLYS Cork requires the same maintenance as all other TORLYS floors. Simply vacuum or sweep your floors on a regular basis or use TORLYS Floor Cleaner for deeper cleaning. Clean up any spills with a cloth.

## What is the Uniclic joint?

The Uniclic joint is a patented joint guaranteed to resist gapping, warping and cupping. (Some floating floors promote their joint systems, but if it doesn't say Uniclic, it's not the same.) The patented Uniclic is integral to all TORLYS Cork floors. During installation, it doesn't require messy glues or nails of any kind. Uniclic creates a remarkably stable and gap-resistant floor, and because the click joint process is reversible, the floor can be re-used up to 3 times under warranty.

## How do I keep my TORLYS Cork floor looking new?

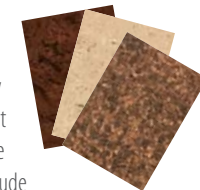

It can be years before the natural beauty of your Cork floor will need to be rejuvenated. As soon as a wear pattern is visible, simply apply TORLYS Dressing.

## Can I install TORLYS Cork myself?

TORLYS Cork uses the patented Uniclic joint, a glue and nail-free joint system that ensures a great-looking floor and makes installation easy. All you need is an Installation Kit, a few basic tools and some time to install your floor. Ask your local TORLYS dealer for more details on installation.

## Can I order samples of TORLYS floors?

Yes. TORLYS Online Sample Ordering makes it easy to request any flooring sample. Visit our website at [www.torlys.com](http://www.torlys.com), and click "Order Samples" on the home page. For a small fee, your package will include a minimum of 3 (three) 4" x 6" flooring samples of the collection and style of your choice, up to 3 (three) TORLYS brochures and a rebate coupon off your purchase.

## TORLYS Cork Warranty

TORLYS Cork floors are covered by a 25-Year Residential Wear Warranty, and a Lifetime Structural and Joint Integrity Warranty. These warranties apply to the original end user, are not transferable, and cover only approved product applications. Please note that these warranties are valid from the date of purchase as shown on the consumer invoice. Warranties are valid only if proper installation (including the use of TORLYS recommended underlay products, where needed) and maintenance procedures, are followed. Visit [torlys.com](http://torlys.com) for detailed information.

### 1. Wear-through Warranty

This is restricted to wear on the surface of the boards. The wear must be readily visible and cover a minimum of 10% of the installed floor. Gloss reduction is not considered wear.

### 2. Lifetime Structural Warranty

We guarantee this product is free from manufacturing defects and will remain free of these defects for as long as you own your residence.

### 3. Lifetime Joint Integrity Warranty

The joint will remain secure and the planks will not come apart. Note: All TORLYS Cork floors are engineered to minimize gapping that can occur in natural floors with seasonal fluctuations. Minor gapping (up to 0.2mm or 0.01"), without the unlocking of the pieces, may occur and is not considered a defect.

# Flooring for a better world.

Cork is gathering worldwide recognition as a flooring with unsurpassed environmental advantages. TORLYS has long been an innovator in cork flooring, continuously rethinking every aspect - from renewable resource foresting to re-useable design.

## TORLYS and the Environment

"At TORLYS, we create beautiful and practical flooring, but not at nature's expense. We rethink every aspect of floor design and optimize every possible environmental benefit."

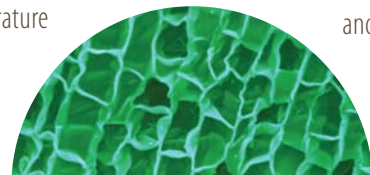

*Peter Barretto, CEO, TORLYS Inc.*

## TORLYS Cork Floors

### QUIET, WARM AND COMFORTABLE

Composed of millions of tiny cellular air pockets, cork is an extraordinary insulator, quiet, warm and exceptionally comfortable to walk on. Cork reduces heat loss in rooms, helping to maintain a pleasant indoor temperature - never too hot or too cool.

### RENEWABLE

Cork floors are made without cutting down cork oak trees. Cork bark is carefully harvested, once every nine years, in a centuries-old tradition with hand tools, a process ensuring that forests will remain undamaged. It is not unusual to have a 200 year-old tree still producing cork bark.

### HYPO-ALLERGENIC

Indoor air quality actually improves with cork flooring. It is hypo-allergenic and insect resistant. Mites and even termites are repelled due to a naturally occurring substance in cork called Suberin.

### THE INTEGRITY OF UNICLIC

The patented "Uniclic" joint is integral to TORLYS Cork. During installation, it doesn't require messy glues or nails of any kind. Uniclic creates a remarkably stable and gap-resistant floor, and because the click joint process is reversible, the floor can be re-used up to 3 times under warranty.

### DURABLE

TORLYS Cork is backed by a precisely engineered high-density wood core. This design facilitates dent resistance and surface performance, ensuring durability and great looks for decades. For repairs, removing a plank is easy - even if it's in the middle of the floor - using the patented TORLYS Bulldog tool.

### LOOKING GREAT. FEELING GOOD.

TORLYS Cork is an easy way to add warmth and unique expression to your space. And, when you own a cork floor, you will feel good about the environment at the same time.

# Accessories

## Moulding and Trim

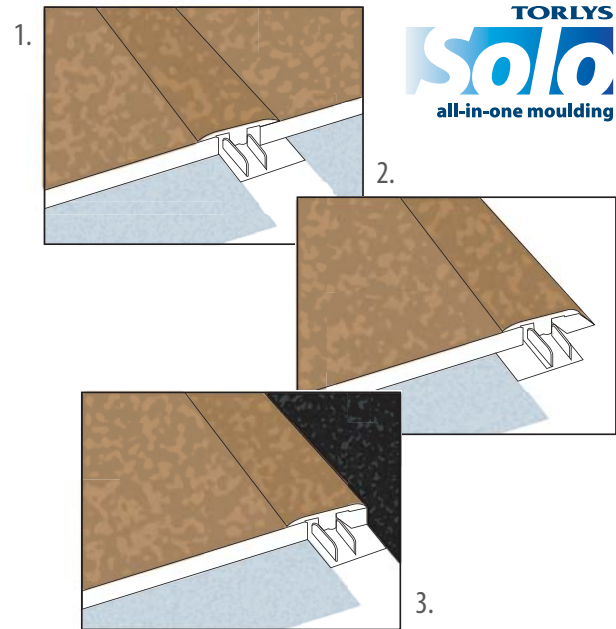

TORLYS Cork floors require a transition moulding to cover the expansion gap mandatory in floors wider or longer than 30', and at doorways.

**Solo Multi-Functional Moulding** (length 84-1/2"; 2150 mm)

1. T-Moulding: Used to adjoin two floors of identical height.
2. A Reducer: Used to transition two different floor heights.
3. Square Nose: Edge moulding used to conceal the expansion gap around the perimeter of a room and against sliding doors.

**Stair Nose** (length 84"; 2134 mm)

Stair-edge trim moulding for installation of TORLYS Cork on staircases.

## Tile Patterns

Mix and match Florence Tiles. (See right-hand cover flap.)
